

PSD2 Response times statistics

As part of the PSD2 directive, banks are required to publish statistics of the PSD2 API performance, as required by the guidelines set by EBA. Updated report is published on quarterly basis. For Savings Banks, the report is split to three different reports; availability, response times and error rate.

This report shows the average response times of Savings Banks PSD2 API. Average response times are calculated from the time of the request is sent to API, to the time it takes to response to that request. In case you have any questions or feedback regarding the report, please do contact our service provider.

PSD2 Response times statistics

Response times monthly in seconds

Month	Payment Initiations	Payment Confirmations	Accounts	Accounts (Balances)	Accounts (Transactions)	Funds Confirmations
